## RISE Supervision

What do you hope to get out of supervision?

What resources do you have to contribute to your supervision experience?

What do you need from your supervisor to ensure you have a quality supervision experience?

You will learn more than you think

There's a big difference between learning about ABA and actually using the strategies in practice. It's natural for you to feel unsure at first.

Completing this Mission provides the guidance you need to successfully complete your Supervised Independent Fieldwork!
